Outback HUB-10 Communications Manager

The HUB system communications manager is the backbone of your networked OutBack power conversion system. The OutBack HUB communicates stacking, load share and power save on/off signals. Interconnection cabling is standard Ethernet CAT5 with RJ45 modular jacks. Through the use of a HUB, your system is completely coordinated and managed by the MATE.

Technical Specifications
• Number of Ports: 10 plus MATE.
• Unit Weight: 0.5 kg.
• Unit Dimensions: 27 cm x 16 cm x 3 cm
